Library Resources at USU

An overview of the services and resources available at USU libraries will be presented. Resources of particular interest to ECE will be emphasized. Electronic access and interlibrary services will also be discussed.

Pamela N. Martin has been a Reference Librarian at Utah State University since 2004. Pam liaises with Engineering departments and teaches as many library instruction sessions as possible. She is active in the Utah Library Association, but lives in Idaho. Originally from Tennessee, Pam still has a bit of a southern drawl and remains an avid University of Memphis basketball fan. She also has way too many dogs.
